

Service Provider **RISK MANAGEMENT** Program

The payments industry is going through great change.

THE WAY WE PAY IS EVOLVING —**ONLINE**... AND **IN-STORE**.....

To keep pace, acquirers and issuers rely on third-party service providers such as:

Digital Wallet Operators 

Payment Facilitators 

Data Storage Entities 

Digital Activity Service Providers 

Third-Party Processors 

But bringing new providers into the payments ecosystem increases potential risk.

Fraud 

Data Privacy Event 

Loss of Funds 

Money Laundering 

Service Disruption 

OFAC Violations 

That's why Mastercard is introducing the Service Provider **RISK MANAGEMENT** Program... to help ensure that service providers have the right risk mitigation processes and practices in place.

For more information, please contact the Customer Risk Assessment Team: cra_team@mastercard.com

We have a deep commitment to maintaining the integrity of our network. Through the **Service Provider RISK MANAGEMENT Program**, we're working to deliver the best payments experiences for our customers.
